HARROWING TALE OF A FATHER

His Daughter Married Against His
Wishes and When She Becomes Con-
scious She Will Likely Repent—A Brutal
Husband Who Soon Forgot His
Promises.

A warrant was issued by Squire
Rose last evening which will bring to
justice a man who needs the chasten-
ing hand of the law to turn him from the
road which leads to destruction.

Late in the afternoon Henry Saling,
a farmer residing on the place owned
by Doctor Hammond near Wellsville,
appeared before the squire, and asked
that his son-in-law, John Engle, be ar-
rested on a charge of assault and bat-
tery. The justice heard enough to
warrant the belief that there was
cause for action, and made out the
necessary papers while Saling told his
story.

A year ago his daughter, a girl scarce
16 years of age, was employed at the
residence of John McVay in California
hollow. She became acquainted with
Engle, who had not yet attained his
majority, and in course of time the
pair decided that they should marry.
As neither was of age, they feared
the opposition of Saling, but that
thought did not prevent the rash step.
A license was secured, and the
ceremony performed last
Christmas day. When Saling
heard of what his daughter had
done he became very angry, and had
the new made groom arrested for
perjury. The case came before
Squire Manley for trial, and there was
enough evidence at hand to make it
more than a laughing matter for the
happy pair. Friends who learned of
the case and imagined that the
worst was over with the wedding,
persuaded the father to withdraw the
action. He was induced to believe
that his daughter would live happily
with her husband, and as he claimed
that he wanted no other result the
prosecution was dropped. But the
wedded bliss did not last a great
length of time. The couple moved to
Ralston's crossing, and the husband
began to manifest an inordinate love
for the flowing bowl, while his wife
was compelled to work in the restaur-
ant of a relative, James Robinette,
Broadway. On several occasions
Engle manifested his nasty disposi-
tion by thrashing his wife, and, ac-
cording to Saling, was arrested twice
for that offense. After a time Mrs.
Engle secured employment at
Cartwright's pottery, and got along as
well as could be expected until a
week from last Monday, when Engle
came home drunk and after hitting
his wife on the head with a tea cup
and knocking her down, kicked her
in the breast. She went to work the
next morning, but could not endure
the strain and fatigue, and was taken
home in a deplorable condition. She
remained in that state until Sunday
when the last straw was added to the
already heavy burden. Her husband
came home with his usual cargo of
liquor on board, and taking a hatchet
drove it into the bed post, declaring
that if his wife moved he would sink
it in her head. Then Saling inter-
fered, and said he would take the girl
home with him, whereupon Engle ex-
pressed his determination of killing
the old man and destroying the house
by fire. Threats had no effect upon
Saling, and he moved his daughter to
the country home not far from Wells-
ville, where she now lies. Since then
she has been in a semi-unconscious
condition, at times being attacked
with the hallucination that Engle is
near and calling upon her father to
protect her from the man as he would
surely kill her. According to Saling
the poor woman is in an awful frame
of mind, and he fears that she will
die in one of these attacks or never
recover her right mind. He has taken
the unfortunate matter so to heart
that he came near shooting into a
crowd of men early yesterday morn-
ing. He says that he was awakened
before dawn by a knock at the door,
and upon looking out of a window saw
Engle and two companions, who he
believes do not bear the best of
reputations in this place. After ask-
ing who was there he received the
reply that it was his son-in-law with a
New York doctor. That so angered
the old man that he seized a shot gun,
and pointing it out of the window de-
clared he would kill some one if they
did not leave the place instantly.
They left, and the sick woman had
another attack which almost resulted
fatally. Saling was fearfully in earnest
when telling the story, and seemed to
have no other desire than to see his
son-in-law punished as far as the
law would permit. At a late hour

this afternoon Engle had not been
arrested, but he will probably be
called upon to appear before the
squire tonight.

AT THE OPERA HOUSE.

Doctor Crawford Made a Decidedly
Favorable Impression.

The first lecture of the course given
under the auspices of the Young Men's
Christian association of this city was
a most flattering success. There was
a fine audience present, and the
eloquent speaker was listened to with
rapt attention by his delighted
hearers. Doctor Crawford is a most
pleasing speaker. He very much
resembles, in appearance, tone of
voice and style of delivery, our next
president, William McKinley. His
theme was one calculated to bring out
the orator's best efforts, and right
well did he bear out the great reputa-
tion he bears as a public speaker.
Reverend Huston introduced Doctor
Crawford to the assembly in a happy
little speech, and the doctor captured
his hearers from the start. If the
first lecture of the Young Men's
Christian association is indicative of
the nature and worth of the remain-
ing entertainments, then may East
Liverpool have cause for rejoicing.

PICKED THE LOCK.

Burglars Make a Heel at a Butcher
Shop.

When J. A. Joseph, a fifth street
butcher, returned from supper last
evening he noticed that the lights
were turned down, and that a curtain
at the back of the store had been
drawn. These unusual occurrences
caused him to investigate, and he
found that the money drawer had
been robbed of \$6 in silver
and some papers. Before tak-
ing out the paper money, and was thus
saved a considerable loss. The back
door was open, the lock having been
picked by someone who was not a
stranger to that sort of work. There
is no clue to the thief.

IKIRT \$100 IN IT.

There is a chilly man in East Liver-
pool who is stalling. It is Ikirt.
Don't remember the man? Why, he is
our congressman—Youngstown Tele-
gram.

Doctor Ikirt in his plea before the
ways and means committee said, "I
swear that the tariff should stand."
Evidently the people of his district
thought so on Tuesday.—Salem News.

An Astronomical Event.

An interesting astronomical event
took place this morning when
mercury glided across the face of
the sun, although no one in this city
was treated to the sight because of the
miserable weather. The event will
not take place again until November
of 1907.

Increased Income.

Austin P. Wallace, of West Point,
has been granted an increase in his

liam F. Dawson, of this city.

RUMORS OF TROUBLE

Come From the Tin Town of
Irondale.

WHAT THE MAYOR HAD TO SAY

New Men Were Expected From Pitts-
burg Today, But They Had Not Arrived
This Afternoon—Conservative Men Say
There Will be no Violence.

Rumors have been floating all
through this part of Ohio today tell-
ing of trouble that is feared at the
Irondale tin plant when the mills are
to be started Monday morning.

It was learned in Wellsville yester-
day that the Wallace-Handfield com-
pany had been employing men there
to take the places of those who re-
fused to accept the reduction, and
several of the tin workers upon investi-
gation found that it was true. These
men expressed the opinion that there
would be no trouble, and the company
were on the wrong track if they
anticipated violence when the start
was made. The story, however, does
not agree with another which arrived
early this morning, and comes from a
reputable man, H. J. Kinzie was on
the 5 o'clock train when Mayor Pais-
ley, of Irondale, was talking to a man
who sat in the same seat. The mayor
said that he had understood that new
men were to be brought to Irondale
on the nine train from Pittsburgh, and
a boarding house had been arranged
for them not far from the mill. The
proprietor of the place had been per-
suaded by the men not to accept the
offer made by the company, and
would have nothing to do
with the scheme. The mayor had
also learned that the sheriff of Jef-
ferson county had been requested to
send a force of deputies to preserve
order, and he did not like this pro-
ceeding. He believed that until he
had proved himself unable to preserve
the peace the sheriff should do
nothing. He further stated that he
would look upon the deputies as hav-
ing no right in Irondale, and if they
became bolder he would lock them
up as he would serve the men. In
referring to the causes of the strike
he said that the cut was from 30 per
cent to 35 per cent, and at an in-
dignation meeting the tin workers
had decided not to go to work.

Immediately upon the receipt of
this intelligence the News Review
wired to Irondale for further particu-
lars, and late this afternoon received
intelligence that no new men had ar-
rived in town. It is possible that
there is more rumor than anything
else connected with the various
stories, but the facts as given above are
all that can be obtained late this
afternoon. While it is true that
there might be trouble the opinion of
conservative men will admit of no
such belief.

Knocked Him Down.

Two wagons of the East Liverpool
Ice company were being driven
through the Diamond yesterday at
noon, when a small boy ran in front
of the first team of horses. He was
fortunate in escaping injury, as he leaped
back and out of the way of harm. He
tried to pass the other wagon which
was following, and the horses struck
him and knocked him down. But for
the prompt action of the driver the
lad would undoubtedly have been
badly trampled. Beyond a few bruises
he was unhurt, although the accident
created much excitement and attract-
ed a large crowd.

Well Supplied.

The central fire department is now
well supplied with the chemicals used
in the Babcock extinguishers, having
just received a shipment. So far they
have used but a small amount of the
chemicals, but have succeeded, by ex-
ercising economy, in putting out a
number of fires with little or no
damage to the goods. The fire
station has been visited by many
strangers of late as it still proves the
center of attraction, and all are loud
in praising the firemen for the neat
appearance of the place.

A London View.

The Westminster Gazette, the great
London paper, commented on the elec-
tion in these words:
"The return of Coxey to congress is
a pleasing sign of the times. Accord-
ing to all accounts he is a better man
than his enemies make out, and there
is every reason to believe that he will
exercise a healthy influence in Wash-
ington."

What a lot of fun the readers of the
Gazette would have if they knew just
what position the commonwealer does
occupy in this great nation.

The McGregor Case.

Attorney P. M. Smith, who will
take a prominent part in the Mc-
Gregor trial, said yesterday that as far

as he knew there would be no post-
ponement, and the trial would come
upon a week from Monday morning.
He had not heard of the prosecution
asking for a delay, and he knew that
his side was prepared. From another
source it is learned that the trial is
expected to be one long series of sur-
prises.

No Settlement at Tiltonville.

A Steubenville paper reported in its
issue of yesterday that the Tilton-
ville pottery had started. President
Hughes was seen today, and stated
that he had heard nothing of a settle-
ment, and so far as he knew the strike
was still in force. When he was there
the men had informed him that they
would let him know when the settle-
ment was reached, but as yet nothing
had come from them.

Another Fake Exposed.

The Salem Herald is responsible for
the statement that a padded article
sent out from Lisbon regarding the
extension of the Niles branch of the
Erie railroad to this place is all rot;
that there is nothing in the scheme,
and its only justification is a prospec-
tive new era at the county seat. The
fact that it might be an object for
the Erie to extend its lines is not set-
tled by any means.

Worked the Landlady.

The proprietor of a boarding house
appeared in an office this morning and
asked regarding the financial standing
of a young man who has been board-
ing at her place, and said he was em-
ployed at the business house in ques-
tion. As they knew nothing of the
fellow who did not work there, the
landlady went home wearing the bol-
le that some had been eating at her
table for nothing.

Reward by Coxey.

After Jacob S. Coxey discovered
that he was a defeated man and would
be compelled to return to his sand
mine, he gathered the remnants of
the commonweal, who have been cam-
paigning with him during the fall,
and gave them employment in his
quarry. Nine canvassmen and 12
teamsters will now earn their daily
bread.

The Farmers' Institute.

NEW LISBON, Nov. 10.—It is an-
nounced here today that the Central
Columbiana County Farmers' in-
stitute will be held here the last day
of this year and the first of next. All
sessions will be held in common pleas
court room, and the speakers pro-
vided by the state are W. T. Chamber-
lain, of Hudson, and a gentleman
from Wooster.

Not Obeying the Law.

Secretary of State Taylor says that
but little attention seems to be paid
to the law of last winter requiring
partnerships to register with the
county clerk, though the law went
into effect at once. The penalty is
that firms not registered have no
standing in court in any proceedings
they may bring, no matter how just
they may be.

Appealed the Case.

SPECIAL TO THE NEWS REVIEW.
NEW LISBON, Nov. 10.—The case of
B. Edwards, a Chicago publisher,
against the N. F. Walker Clay com-
pany, is to have another turn in court.
Today a petition in error was filed and
the case appealed to the circuit court,
where it will likely be tried. The
amount involved is a bill for adver-
tising.

Made an Assignment.

SPECIAL TO THE NEWS REVIEW.
NEW LISBON, Nov. 10.—Frank
Knowles, one of the most prominent
business men of Salem, made an as-
signment a few minutes ago to At-
torney Henry C. Jones. The liabilities
are not known but are said to be
large.

Sold Eighty Tickets.

John T. Salmon, who has been do-
ing his best to dispose of tickets for
the Young Men's Christian associa-
tion course, has sold 80. He leads all
the others, and has the sincere thanks
of the committee for his energetic
work. Jack says he is still in the
market, and will sell until the third
lecture.

Geese on the Move.

Several bunches of wild geese went
up the river this morning. They
were flying high and making good
time. The number was large, the
flocks being composed of more than
have been seen in this region for some
time.

Neither Appeared.

In the case of Emmett Willison
versus J. C. Lutton, which was dis-
missed by Squire Manley yesterday,
the squire says that the cause for dis-
missal was that neither plaintiff nor
defendant appeared.

A MAN AND A SHOTGUN

Make an Unpleasant Combina-
tion

WHEN THE MAN IS ALMOST WILD

And Carries the Hallucination That
Three Persons Are After His Life.
Robert Ritchie's Experience A Case
Where Protection is Asked.

Robert Ritchie, a painter who claims
Sewickley as his abode, asked Chief
Gill for protection last night, saying
that he was being pursued and in
danger of being killed.

The man was in a pitiable plight,
and readily accompanied the chief to
city hall where he was looked up.
He explained that he had come from
Sewickley with a gun, and was being
hunted by three men. Upon reaching
here he went to the West End where
a sister resides, and thinking that the
men were close upon his heels went to
the residence of John M. Aten. He
was cared for at that place, but could
not break away from the hallucina-
tion, and dashing from the house
came to the Diamond still carrying
the gun. To a reporter he said that
he had once lived here where he fol-
lowed his trade of painting, and had
not taken to drink until he had
trouble in his family. He was evi-
dently suffering from a prolonged
sneeze and would have been a danger-
ous man if some one had prompted
him to fire the gun.

Mrs. Steele called upon Mayor Gil-
bert this morning, and asked protec-
tion for Mrs. Charles McGavern, who
is very ill on Fourth street. She said
that McGavern had a nasty habit of go-
ing into the sick woman's room, and using
language that was not fitted for the
occasion, cursing at her bedside. A
Mrs. Smith had promised to care for
Mrs. McGavern provided the police
would protect her from the profanity
of the husband, and it was so de-
cided.

A warrant was issued today for the
arrest of Melvin Wooley, who is
charged by Mrs. Eliza Jones with
threatening to strike her and using
vulgar and indecent language. The
lady asked for the arrest, claiming
that Wooley had passed her house on
Third street Thursday night in a
drunken condition, and when she re-
monstrated with him for slapping one
of her children, he acted as the war-
rant charges, using the vilest of lan-
guage.

Work Delayed.

The workmen engaged in paving
Sheridan avenue under the direction
of Contractor Ryan, ran out of bricks
this morning, and owing the failure of
a carload of the material to arrive the
work is being delayed.

Entertained Friends.

Frank and Ross Robbins entertained
friends at the latter's residence on
Sheridan avenue last night. The
evening was pleasantly spent by all
present and the guests enjoyed them-
selves until a late hour.

EAST LIVERPOOL, O., SATURDAY, NOV. 10

For President,
WILLIAM MCKINLEY,
OF OHIO.

HAVE faith in the future. If the Democrats do not enact a law with even lower duties than those provided by the present miserable monstrosity, good times will come.

Mr. Coxey will kindly retire to his farm, and spend the remainder of his days in building up the fortune he lost since he joined forces with Carl Browne, the public will look upon him as a man of some sense.

It is pleasing to look over the past few months, and remember the energy with which Wilson was depicted as the idol of the nation and David B. Hill transformed into a knight defending the interests of the people. Yes, it is interesting.

HON. R. W. TAYLOR will find a fertile field in congress for his restriction of immigration ideas. The country is growing to realize the necessity of a movement which will result in keeping out the pauper and felonious scum of southern Europe.

SONS OF OHIO.

Ohio should be proud of its next delegation in congress; should feel glad to know that they are men upon whom the Buckeye state can rely for a faithful representation. Here they are:

First district, Charles R. Taft, R.; Second, Jacob D. Brownell, R.; Third, Paul J. Sarg, D.; Fourth, F. C. Layton, D.; Fifth, F. C. Dewitt, R.; Sixth, George W. Hardick, R.; Seventh, George W. Wilson, R.; Eighth, Luther M. Strong, R.; Ninth, James A. Southard, R.; Tenth, Lucien J. Grosvenor, R.; Eleventh, Charles H. Fenton, R.; Twelfth, D. K. Watson, R.; Thirteenth, S. R. Harris, R.; Fourteenth, Winfield S. Kerr, R.; Fifteenth, H. C. Van Voris, R.; Sixteenth, Lorenzo Danford, R.; Seventeenth, A. S. McClure, R.; Eighteenth, Robert W. Taylor, R.; Nineteenth, S. A. Northway, R.; Twentieth, Clifton R. Beach, R.; Twenty-first, Theodore D. Burton, R.

It is sincerely hoped that the Fourth and Fifth will reconsider it the next time, and make the delegation unanimous.

PROTECTION IS PATRIOTISM.

It needs only a glance at the recent political events to show that the people have made protection an essential element of patriotism. When the country suffered, and the family of many an honest man cried for bread, the great American public decided to change the condition at the first opportunity. And they have carried out their desire. In every election since the disastrous events following the elevation of Grover Cleveland, the party which he leads has been losing ground. Thousands upon thousands have left its hateful banner and found shelter under the protecting folds of Republicanism. They knew that some bold move in the cause of patriotism was needed to show their love of country, and with a unanimity which, in itself, is remarkable, they espoused the principle of protection, voting by hundreds to rebuke the presumptuous leaders who dared to steal their prosperity. By their action, the American people have established a precedent which means that in time of danger they look to the Republican party to give them succor. When in the need of friends, they call upon the friends of the olden time.

Important to Ladies.

Silvering Mirrors.

Mirrors are usually silvered by coating the glass with amalgam. For this purpose a large, perfectly flat stone is provided, and upon it is evenly spread a sheet of tin foil without crack or flaw. This is covered to the depth of one eighth of an inch with clean mercury. The plate of glass, perfectly cleaned from all grease and impurity, is floated on to the mercury by sliding, so as to exclude all air bubbles. It is then pressed down by loading it with weights, in order to press out all the mercury which remains fluid. This is received in a gutter around the stone. After about 24 hours it is gently raised upon its edge, and in a few weeks it is ready to frame.—Family Journal.

His Shirt.

"What do you charge to wash a shirt?" inquired the man at the counter in the laundry.
"What kind of a shirt?" asked the clerk, with his mind on outing shirts, dress shirts, negligees and the various other possibilities in that line.
"A dirty shirt," replied the man, and the clerk fell in a faint.

THE JAPS REPULSED

A Reverse Suffered by Them at Port Arthur.

CHINA URGED TO ASK PEACE.

The Powers Secure Japan's Promise to Consider Such a Proposition Benevolently—Different Reports Indicate a Move by European Nations.

YOKOHAMA, Nov. 10.—Rumors are current here to the effect that the Japanese forces have suffered a reverse at Port Arthur.

A London special says: A dispatch from Shanghai states that the Chinese men-of-war remaining outside of Port Arthur have been ordered to attack the Japanese fleet that is blockading that port and preventing the egress of a number of Chinese warships now lying there. A Tien Tsin dispatch to The Times says that responsible Chinese officials appear to be callous as to the fate of the empire. They attend chiefly to their personal interests, such as contracts for furnishing arms, etc. The people are also indifferent. In the vicinity of Moukden they suffer more from fear of the Chinese soldiers than from fear of the enemy. The dispatch adds that the Russian officers on the station have been instructed to conciliate their British colleagues.

It is said that the powers have urged China to negotiate for a peace directly with Japan and that they have secured Japan's promise to meet the overtures in a benevolent spirit.

A Paris dispatch to The Times says that Lord Rosebery, the British prime minister, intends to propose a collective landing of troops in China. A Berlin dispatch to The Daily News says that the German admiralty has telegraphed to the admiral commanding the German squadron on the Chinese station to obey the orders of the British admiral in certain possible eventualities.

A Daily News dispatch from Paris says that France seems disposed to entertain the idea of an European conference on the Chinese-Japanese war.

A dispatch to The Times from Yokohama says that two Americans who were arrested at Kobe on the French steamer Sydney were torpedo experts who had contracted with China to employ their own inventions to destroy the Japanese fleet. China promised them \$1,000,000 for each warship they destroyed and a proportionate sum for each merchantman they succeeded in blowing up.

ENGLAND WANTS PEACE.

Rosebery Says the Government Still Works to Settle the War.

LONDON, Nov. 10.—In accordance with the ancient custom, the new lord mayor of London, Sir Joseph Renals, gave a banquet at the Guild hall last night. The principal speaker was Prime Minister Rosebery. In talking of the Chinese-Japanese war, he said the British government had not lost the chance of making some progress towards a peaceful settlement. Continuing, Lord Rosebery said: "We are determined to maintain a strict neutrality, but on the other hand we cannot forget that we have shown a striking and tangible proof of friendship with Japan by our recent treaty, which gave Japan what she had most at heart, while we had shown friendship to China in attempting to secure peace. Although our efforts have not yet met with success, we do not repent them. We acted throughout in accord with Russia. We would still be glad to join in any pacific means to secure a peace honorable to Japan and not disastrous to China. The newspapers have been advising the government to secure the opportunity now offered to enter into a cordial entente with Russia. That advice the government has already anticipated. [Cheers.]

The government's relations with Russia are more cordial than ever I remember. The prime minister further said that there were at present three elements endangering the world's peace—enormous armaments, the press and armed explorations. He did not believe that the newspapers in their fierce competition sufficiently weighed the effect the intelligence they publish had on great international ententes. The press, he declared, should sift the news before publishing it. After deprecating armed explorations in Africa as a menace to European peace, Lord Rosebery said: "Our foreign policy is distinctly conservative. We covet nothing abroad and only want to maintain the status quo."

Whites and Negroes Fight.

HOPKINSVILLE, KY., Nov. 10.—While returning home from a protracted meeting at Trenton, a town 10 miles south of this city, a party of 12 couples of young country people encountered a negro torchlight procession, led by a brass band. The horses of the country people became frightened, and the negroes were ordered to stop the music until the bugles passed. On their refusal to do so, a free-for-all fight ensued in which several people were badly injured. Three ladies were thrown from buggies and severely hurt. Thirteen negroes have already been arrested.

Sentenced to the Electric Chair.

NEW YORK, Nov. 10.—Carl Feigenbaum, aged 53, convicted of the murder of Julia Hoffman, his boardinghouse mistress, at her home on the night of Sept. 1, has been sentenced to death by Recorder Smythe, in the court of general sessions. The sentence is to be executed during the week of Dec. 15. Feigenbaum protested his innocence.

An Embezzler's Hearing Today.

SAN FRANCISCO, Nov. 10.—John W. Flood, ex-cashier of the Donohoe-Kelly bank, who is charged with falsifying the records of the bank, by which he was enabled to embezzle \$45,000, is having a hearing before the police justice today. The jury at Flood's second trial, when he was accused of embezzling \$104,000, disagreed.

One Hundred and Fifty Persons Killed.

PANAMA, Nov. 10.—A cloudburst near Valencia, Venezuela, killed 150 persons and damaged the coffee and other crops to the extent of half a million dollars. Houses have been leveled, bridges washed away and traffic generally suspended.

Racing Knocked Out.

ROCHESTER, Nov. 10.—George W. Archer, president of the Rochester Driving Park association, says that under the provision in the new constitution prohibiting pools along at race tracks the circuit races in Rochester will have to be abolished. "Not a corporal's guard would attend the races if there were no pools sold," he said.

WASHINGTON, Nov. 10.—Ex-Governor William E. Russell of Massachusetts has been appointed by the president a member of the Board of Indian Commissioners.

ANOTHER BOND ISSUE.

A New York Paper Says It Is to Be Made Shortly.

NEW YORK, Nov. 10.—The Press today says it is announced that the government will ask the bankers for another loan of \$50,000,000. Gold bonds for that amount bearing 5 per cent interest will be issued within a few days at a price which will net investors about 1 per cent annually. Assistant Secretary of the Treasury Curtis has been in this city for several days and has had conferences with the presidents of national banks and trust companies. One of these bank presidents said:

"Yes there will be an issue of bonds shortly. Probably within the next week or two. Secretary Carlisle will call for investors. President Cleveland and the secretary have determined that the gold reserve shall not be further depleted. If the people do not take all the bonds, as it is probably they will not, the bankers who floated the last issue will subscribe. As far as is known in this city the exact amount of the issue has not yet been determined. The issue will undoubtedly reach \$50,000,000. It has not yet been decided to whether a syndicate will be formed to take these bonds are not. That also will depend upon the action of the authorities in Washington."

GENERAL M'COOK PROMOTED.

He Takes the Place of General Howard, Retired—Other Promotions.

WASHINGTON, Nov. 10.—Brigadier-General Alexander McDowell McCook has been appointed major general of the U. S. army, vice General Howard retired, and Colonel James W. Forsyth of the Seventh cavalry has been made brigadier general to succeed McCook. The rank for the place vacated by Major Howard's retirement was between General McCook and General Ruger, the latter commanding the department of California, and the former was peculiarly fortunate in receiving the appointment over General Ruger, who stands at the head of the list of brigadier generals, because he would otherwise retire in a few months with the rank of brigadier general. As it is General Ruger's promotion will probably only be delayed for a time.

Major General Miles will transfer his command to New York, succeeding Major General Howard as commander of the department of the east.

The Indians Nearly Finished.

PHILADELPHIA, Nov. 10.—Work is progressing rapidly on the battleship Indiana at Cramp's shipyards. The ship will be ready for her official trip in a few weeks. Lieutenant Nixon, supervising constructor for Cramp, who designed the Indiana and is superintending her construction, is enthusiastic over the fit of the big Harveyized side plates of the battleship. Much interest has been expressed among naval men concerning the condition of these plates upon their delivery at the yards. The fierce heat to which plates are necessarily subjected in the Harveyizing process often has the effect of warping them and, as it is impossible to work them after they are put through this process, it was feared they would not fit.

Admiral Gherardi Retired Today.

WASHINGTON, Nov. 10.—Today there was placed on the retired list the commandant of the New York navy yard, Admiral Bancroft Gherardi, one of the few old war commanders now in the naval service and known in naval parlance as the "Seagoing Admiral." He leaves behind him a career of distinction, full of hard fighting and severe service, and without a blemish. His total active service amounts to 48 years and 5 months, and 25 years and 8 months of that service were spent at sea. Even during the seven years he has held the rank of rear admiral in a time when few admirals make more than one cruise under their own pennant, he has been at sea about 4 1/2 years.

Ten New Vessels Commissioned.

WASHINGTON, Nov. 10.—The annual report of Admiral Ramsay, chief of the Naval Bureau of Navigation, is unusually short and is confined to a recapitulation of the work done in his bureau during the year. Ten vessels were put in commission, the Columbia, Cincinnati, Raleigh, Atlanta, Marblehead, Montgomery, Essex, Machias, Castine and Alert, and the three American merchant steamers were examined under the subsidy act.

Nearly Tore His Tongue Out.

LOUISVILLE, Nov. 10.—While crazed from the effects of a protracted spree Peter Pepper, a barber, an inmate of the City hospital, grasped his tongue in both hands and tore it partially from his mouth. An attendant discovered the suffering man, who was still tugging away at his tongue. All efforts of the hospital surgeon to save the man's life were unavailing and he died shortly after in intense agony.

Lost and Gained a Million.

NEW YORK, Nov. 10.—It is estimated that the banks have during the week lost about \$1,000,000 by sub-treasury operations and gained about the same amount by the interior movement. Banks in Philadelphia and the eastern states are sending money to this center just as steadily as though the rate of interest on bank deposits had not been reduced.

CAMERON THEIR HOPE

Silver Men May Put Him Up For President.

NEW PARTY TO BE ORGANIZED.

Representative Sibley and Some Ohio Congressmen Interested.—Senators Jones and Stewart and Others in the Scheme. Western Silver Men Active.

DENVER, Nov. 10.—The silver men of Colorado and other mining states are maturing plans, it is said, for launching a "silver party." They will co-operate with the metallists of the south and east, and a call will soon be issued for a meeting to effect an organization.

"I do not care to have my name used," said a prominent mining man, "but I have letters from Cameron and Sibley of Pennsylvania, several Ohio congressmen, Senators Jones and Stewart of Nevada, and many others, all urging us to form a silver party. We have no hope from the successful party in congress."

"Do you think Cameron would run as an independent candidate against the Republican party?"

"I feel confident he would head our ticket with pleasure. He wants in the platform only silver and protection. We all believe that our party will be the principal opponent in 1896 to the Republican, unless the Democrats during the short session should pass a free coinage bill."

George G. Merrick, president of the Colorado Silver League, says plans for the organization of this new party are well advanced, but are not yet ready for publication.

The transmississippi congress meets in St. Louis on the 27th inst., said Mr. Merrick. "We had thought of calling our initial meeting there at that time, but it has not gone farther. A few days more will decide the question."

Democrats May Control the Senate.

WASHINGTON, Nov. 10.—A point that has been overlooked in computing the political complexion of the next senate is the admission of Utah, with two United States senators. Another probability which arises is the admission of both New Mexico and Arizona, which may be accomplished in time so that four more senators would participate in the organization of the next senate. The admission of these new states would make a total of 94 senators, and any party to control would need 48 for a majority. With the vice president the Democrats could control the senate with 47 senators.

California Still Uncertain.

SAN FRANCISCO, Nov. 10.—The election of Budd, Democratic candidate for governor, is not so certain as it first seemed. His lead over Estee (Rep.), has been steadily decreasing as the returns come in and he is now 1,404 ahead of the Republican candidate. There are still 328 precincts to hear from and if Estee's gains continue in the same ratio as they have been, he may yet beat Budd. The Republican State committee claims Estee's election by several hundred plurality.

Denny Threatens to Contest.

LEXINGTON, Ky., Nov. 10.—The official count gives W. C. Owens (Dem.) 191 plurality over George Denny (Rep.) in the Ashland district. Judge Denny alleges that hundreds of illegal votes were counted in the precincts of Lexington and that frauds were committed at the election in the interest of his opponent, and says he will carry the contest to the house of representatives.

Culbertson Safe in Texas.

AUSTIN, Tex., Nov. 10.—Returns from the state show large Populist gains but Culbertson (Dem.) for governor will have a plurality of 40,000. In the Twelfth congressional district (Newman, Rep.) is elected by 500 majority. The result in the Thirteenth district is close between Cockrell (Dem.) and Gilliland (Pop.) with the chances favoring Cockrell. Eleven districts are Democratic.

Turner Elected Governor.

NASHVILLE, Nov. 10.—The American has full returns from 69 counties and majority returns from 19 counties. These returns give Turney (Dem.) 2,728 majority over Evans (Rep.).

GREAT OVATION TO BOOTH.

The General Royally Welcomed in Pittsburgh.—Will Start a Shelter.

PITTSBURGH, Nov. 10.—Despite the storm last night, historic old Lafayette hall was packed with those who would not miss the opportunity of hearing General William Booth explain in his own way the social scheme of which he is the author. The audience was representative of the best social and religious classes of the city. Rev. Drs. W. J. Holland, J. P. E. Kummer, S. S. Gilson,

GENERAL BOOTH.

R. S. Holmes, with S. S. Marvin, J. L. Buchanan, H. L. Gourley, E. S. Morrow, H. J. Irwin, Charles Davis, H. Sansom, H. C. Collins, Smith Agnew and others occupied seats on the platform. General Booth and his son, Ballington Booth, and Captain Malan, the general's secretary, received a great ovation when they entered the hall. City Controller Gordon made a speech of welcome, and General Booth then explained his mission.

General Booth is stopping at the residence of S. S. Marvin. When seen there he talked freely of the plans and purposes of the Salvation army, and said that while he had no plan he had a purpose to establish a "shelter" in this city, as he regards it almost indispensable to the success of the army. He will personally preside at the afternoon and evening meetings of Sabbath and likely at the morning meeting. On Monday morning he leaves the city for Cleveland.

Mrs. Cleveland Christens the Ship.

PHILADELPHIA, Nov. 10.—All arrangements have been completed at Cramp's ship yard for the launching of the American line steamship St. Louis on Monday next. This event has attracted more attention than any similar affair in recent years because the St. Louis is the first modern ocean passenger vessel built in this country, and the preparations have been necessarily on a larger scale than usual. Mrs. Cleveland is to christen the ship, and she will be accompanied from Washington by a distinguished party, including all the members of the cabinet and their wives.

Three Thousand Chinamen Interested.

NEW YORK, Nov. 10.—The case of Lee Yuen, the alleged Chinese merchant who is held here for entering the United States by way of Burlington, Vt., in violation of the Chinese exclusion act, has been submitted to Commissioner Shields after arguments by ex-Judge Curtis and United States District Attorney Wallace MacFarlane. The case is likely to be carried as far as the United States supreme court, as upon its determination will depend whether 3,000 Chinese in this city can remain.

Striker Likely to Be Hung.

WOODLAND, Cal., Nov. 10.—Salem G. Worden, one of the several American Railway union men charged with having wrecked a Southern Pacific train during the strike in July last, causing the death of Engineer Clarke and four United States soldiers, has been convicted of murder in the first degree. The jury offered no recommendation. The penalty is death or life imprisonment. The other accused train wreckers will be promptly tried.

LEFT A BLOODY TRAIL.

Two of the Cook Gang Raid Lenapah, I. T.

A BRAVE CITIZEN WAS KILLED.

Another Townsman Reported to Have Been Seriously Wounded.—Stores and the Postoffice Robbed.—Merchants Held Up. Coffeyville People Prepared.

COFFEYVILLE, Kan., Nov. 10.—Two of the Cook gang have plundered the town of Lenapah, I. T., and left a bloody trail behind them. They entered the town in their character of bold bandits, without any attempt at concealment, and terrorized the citizens until they had carried out their plans of robbery. E. E. Melton, a brave young man who attempted to stop them with his gun as they were riding away, was shot and instantly killed. Another man, whose name has not been learned, is reported to have been seriously wounded. Both of the victims were with a small force of citizens who had hastily armed themselves and attempted to prevent the escape of the bandits.

The robbers were mounted on fast horses and were heavily armed. Some of the citizens claim to have recognized them as Cherokee Bill and Jim French, well-known henchmen of Bill Cook, the leader of the gang. The robbers held up the proprietors of two stores and looted both places. They also robbed the post-office. John Shufeldt, the proprietor of one store, was relieved of \$100 in money and a gold watch. These articles were taken from his person. Mr. Shufeldt proclaimed his loss to the town before the robbers had finished their work, and the band of citizens were almost between them and their horses when the robbers went to mount. An effort was made to stop them, but they were on horseback with drawn pistols and were flying away before their would-be captors could make a concentrated move.

Melton was more rash than the others and met death in consequence.

The news, as it reached this city, does not state in what manner or how seriously the second victim was injured. A report says the bandits are headed for Coffeyville, which is only 15 miles from Lenapah. This place is the scene of many trade robberies, and the police with volunteers are prepared to meet them in the same way they met the Daltons two years ago, when almost the entire band was wiped out.

K. of L. Men In New Orleans.

NEW ORLEANS, Nov. 10.—A number of delegates to the national Knights of Labor convention, which meets here next Tuesday, have arrived. Simmons, Washington; Patrick Murphy, New York; Richard J. Kerrigan, Montreal; Andrew D. Best, Brooklyn; A. J. Zoller, Jersey City, and J. A. Volpey, Detroit. The usual executive meeting is now being held in advance of the convention to anticipate such business as will probably come before the convention.

Service to the Czar's Memory.

WASHINGTON, Nov. 10.—Profoundly impressive ceremonies were held at the Russian legation here by Bishop Nicholas in memory of Czar Alexander III, whose remains lie in state at Moscow, soon to be buried in the imperial tomb of the czars. President Cleveland and the entire cabinet, except Postmaster General Bissell, attended, accompanied by Mrs. Cleveland and the cabinet ladies. The foreign ambassadors and ministers, with their extensive suites, wearing their rich official and court dress, were present in a body, lending brilliant color to the solemn occasion. Ambassador Bayard and ex-Secretary of State Foster were also there.

A Labor Dispute Being Heard.

CHICAGO, Nov. 10.—The case of the Amalgamated Society of Carpenters and Joiners and the Knights of Labor Carpenters' council, against the United Brotherhood of Carpenters' District Council of the Building Trades' council, involving the question whether or not the Building Trades' council has the right to exclude any particular branch of labor from joining its organization when other branches of the same kind of labor are admitted, is being heard before Judge Tuley today.

Attorney Investigation Finished.

NEW YORK, Nov. 10.—Expert Little's report on the financial condition of the Atchison railroad next, in this city, London and Amsterdam, having been sent forward to the two last named cities by mail, so as to be issued simultaneously in all three places. A report is current that Mr. Little's statement wipes out the profit and loss account and will make other unexpected disclosures.

Haymarket Riot Anniversary Tomorrow.

CHICAGO, Nov. 10.—Tomorrow is the seventh anniversary of the hanging of the Haymarket riot anarchists, and, as has been the custom of the anarchists of this city, they will march to the graves of Spies, Parsons, Ling, Engel and Fisher at Waldheim cemetery, where the living anarchists will praise their dead comrades. It is expected that Herr Most will be in the city on that day and take part in the ceremony.

Trying to Kill the Whole Family.

DURANGO, Colo., Nov. 10.—Jesse Haller, who killed Frank Carpenter near Cortez last spring, has again started out, avowing an intention to kill the entire Carpenter family. He met a brother of Carpenter and a man named Dale, witnesses of the former shooting, and opened fire, killing Carpenter and dangerously wounding Dale. A posse is in pursuit of Haller.

Accused of Embezzlement.

TACOMA, Wash., Nov. 10.—George W. Boggs, ex-city treasurer, has been arrested, on information by the county attorney charging embezzlement of \$25,389, the sum deposited by him in the suspended savings bank. Boggs immediately gave bail.

The Daughters of Rebekah will hold their second nomination of officers at the regular meeting on Tuesday evening next. A delegate to represent the local lodge at the state assembly will also be nominated at this session.

George A. Jackson died this morning at a boathouse at the foot of Jefferson street, aged eight years, after an illness from rheumatism. Funeral services will be held tomorrow afternoon at 2 o'clock; interment in Spring Grove cemetery.

Work on the new addition to the electric light plant is delayed at the present only until those in charge can hear from the roofing firms they have communicated with. The proposed improvements will enlarge the capacity of the plant.

Painters and carpenters are rapidly transforming the Methodist Protestant church into a different place. The painters are frescoing the audience room, a furnace is being put in, and the two new rooms will greatly improve the facilities for church work.

All members of the local board who contemplate visiting the state board of commerce, which convenes at Columbus on Nov. 14, will call at J. J. Purinton's and receive certificates, as this enables them to make the round trip for single fare.

Farmers who have been compelled to put stock on the market because of the scarcity of corn, are complaining because of low prices. A St. Clair township man said last night that he cannot get one-half what his horses and cows are really worth.

John B. Courture, of Martin's Ferry, and Miss Mary V. Cordingly, daughter of the proprietor of the St. Cloud hotel, Salineville, were married this week in the presence of a few guests. H. J. Kinsey, of this city, was best man on the occasion. Mr. and Mrs. Courture left for a trip to Niagara Falls.

One young man of the city, who several months ago answered a charge preferred by an unfortunate young woman, is living these days in horror of a few months in the county jail before he is many years older. Friends made every attempt to have it settled for a monetary consideration, but the arrangement could not be made, and the law will likely take its course.

The funeral of Thomas Dorsey at 2:30 o'clock yesterday afternoon was attended by many who had known the deceased, and after the services were over the remains were laid in Spring Grove cemetery. Although Dorsey was not a good citizen, he was proven his worst enemy, and he had many friends who can testify that he was a friend worth having in time of need.

Candidates with their eyes open for places in the city government, are already casting glances about for sure support. It is said that a half dozen aspirants for places in council have already appeared, while other offices will be sought by more than the usual force. A well known follower of Coxey is responsible for the statement that the Populists will have a full ticket in the field, which means vague chances for democracy.

The Women's Christian Temperance union have progressed so far in their work of establishing a home for young girls that they will serve meals on Monday at the quarters near city hall. The ladies promise an excellent meal for a low price, and propose that the patrons will be served on the European style, paying for nothing more than they get. The movement is commendable, and should receive the patronage of the public.

HOWARD L. KERR

Will Soon Have His New Quarters Open For the Public.

Our well-known and justly popular young townsmen, Howard Kerr, has a force of men busily engaged on his new business quarters, Summit lane, immediately in rear of George C. Murphy's clothing establishment, and expects repairs to be completed some time next week, and everything in readiness for active operations in his specialties. Howard will have much better facilities for work than he possessed in the establishment he lately occupied. The front room will be occupied as an office, the next room in rear for the repairing of bicycles, and the third room will be devoted to machinery. The front room on the second floor will be used for electro-plating and work of like character, while the rear room on this floor will be devoted to jewelry repairing, etc.

In addition to gold and silver plating and repairing, all classes of badges and pins for secret society members will be manufactured.

Repairing of sewing machines and all kinds of light machinery will receive careful and skillful attention.

Another feature worthy of special mention is the turning out of models for inventors, such work receiving careful attention at the hands of skillful and thoroughly competent mechanics, men who understand such matters to a nicety, and thus enable Mr. Kerr to guarantee absolute satisfaction in every particular.

The genial young proprietor extends a cordial invitation to all old-time patrons, as well as the public in general, to visit his snug little establishment when repairs, painting, etc., are completed. In the meantime, orders can be left at 164 Summit lane, in rear of George C. Murphy's clothing house, and they will receive prompt attention.

The News Review unites with a host of friends in the wish that Howard may attain the success he so fully deserves.

THE BUSINESS COLLEGE.

A Plain Statement of a Noted Educational Institute.

Professor Mitchell, who has been engaged to take full charge of the institution, is now here and at work. Mr. Mitchell is an artist penman, a fine blackboard artist and entertainer, an expert accountant and very quick and skillful in figures. With this addition to the college, we now request all desirous of receiving a thorough practical business education, to call and see us at once. Classes in penmanship each day from 9:20 to 10 a. m.; evening, 7:20 to 7:50, four nights each week. A department will be open for girls and boys 10 years and older, who are backward in their studies, and whose parents would like to have them prepared to take the full business course. All the common branches will be thoroughly taught. Pupils taught to write well, and to draw up all kinds of business papers. The shorthand and typewriting department has been assigned to a special room, and will be in charge of a thorough, competent teacher. Mr. W. F. Steele, who has formerly had charge of the college, will remain with us as secretary of the college. Our terms have been made to suit the times. We charge \$2 a month for penmanship. A ticket good for 20 lessons; \$3, for those who cannot attend regularly, and \$3 per month for spelling, penmanship, arithmetic and language. Arrangements will be made to have a special class in penmanship each Saturday from 10 to 11 a. m. Professor Mitchell will give private lessons in elocution and Delsarte and mechanical drawing on Saturdays each week.

E. W. FOWLER, President.

Marvelous Results.

From a letter written by Rev. J. Gundersman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at T. L. Pott's drug store. Regular size 50 cents and \$1.

The Lost Paradise.

William Morris, as the star of high class comedy drama, comes to the Grand tonight in that powerful play, "The Lost Paradise." The dialogue of the piece is brilliant and at times humorous, pathos being added to round off the roughness of the hilarity. In the character of Reuben Warner, Mr. Morris has scored his greatest success.

Pull off with starch and glass serene. The linen collar starts the morn. Pull off at bedtime it is seen. All wilted, wrinkled and forlorn.

That's what you must expect of such a collar; it's the linen of it. The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and waterproof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

Insist upon goods so marked if you expect full satisfaction, and if your dealer does not keep them, send direct to us enclosing amount and we will mail sample. State size and whether a stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

THE AMERICAN WORKINGMAN.

How He Appears Through the Spectacles of St. Paul Bourget.

Behind the capitalist, be he ever so intelligent, so active, so enterprising, there is the working man, says Paul Bourget, in his book on travel in America in the Boston Herald. Given that America is a par excellence a democracy, it is that personage which constitutes its fundamental basis. If the civilization of that country is to change again, as it so often gives the impression, it is through the workingman that it will change, as France of 1789, whose material life rested on the peasant, changed through the peasant. From time to time formidable strikes, which everywhere else would be called civil wars, seem to foretell one of those class duels, the issue of which is never doubtful. The more miserable, ever since the world has been the world, have always beaten the more happy, when it has come to a matter of battle.

However, at other times and outside of these questions of strikes you may talk to some of those laborers, you find them so evidently happy in their work, executing it so well, with such an independence of free citizens on their rough features. They so visibly have the calm of energy amid the rising and falling of the piston rods, the whistling of the leather bands, the snorting of the steam, the whirling of the flywheels. The expenditure of personal force is for them so intelligently applied, saved by mechanical aid! You know from other sources that wages are so high, \$1.50 per day—\$2! You know with what insurance societies its activity is surrounded. They are so numerous, so complete, so ready to sustain the workingman and to sustain his family under all circumstances, from the days of stoppage even unto death.

Thanks to one of these societies, he has his own house. Thanks to the town and to foundations of all kinds, the education of his children is assured. The military service, that monstrous abuse of old Europe, has been spared to him and to his sons. You return to the idea which has influenced so many emigrants to leave everything and to come here—that America is the paradise of the workingman. How can you reconcile two points of view, founded the one and the other upon indisputable facts and so radically contradictory?

Golf.

"To be a good golfer," says a feminine authority, "you must commence early in life, and it is noticeable that most people leave off very late. I have seen a very pretty matron, the mother of ten, keep her hungry fold waiting for dinner while she played out her foursome." Another muscular mother, who, in accompanying her husband to India, was therefore obliged to leave her small boys and girls in England, found great comfort at the time of her parting from them in the news that there were splendid golf links at the military station in

India to which her husband and she were going. English women, however, are not, as a rule, so hopelessly daft over the game as the great majority of Englishmen. Like love, this game worketh like madness in men's brains. A non-golfing bride to be, whose groom to be dreams, talks and labors only upon the links, threatens to add to the marriage service, "I take this man for better or worse, but not for golf."—New York Sun.

Beautiful Garnets.

The garnet family contains many stones used in jewelry. None has great value unless it be the emerald green variety known as uwarowite and those soft brown green ones which come from Brobrowska. Cinnamon stone (essonite) from Ceylon is a deep golden garnet, unfortunately nearly always "bubbly," and the almandine is a beautiful kind of flame red, with a touch of violet. So called "cape rubies" are nothing but bright garnets, and it is but too certain that a confiding public often buys them for real rubies. The caruncle, once so fashionable, is only a garnet cut en cabochon, often hollowed at the back to let in a light glow. Some garnets cut in this form show a delicate silver cross with four rays. The stone is occasionally found of immense size, large enough to fashion boxes and cups.—Philadelphia Times.

Reassured.

"Jonah," expostulated the whale, "do keep still." "Certainly," answered the famous man, "now that I know where I am. I wasn't sure but I had been caught in a folding bed, don't you know."—Detroit News-Tribune.

The most splendid pair of shoes on record were those worn by Sir Walter Raleigh on great court occasions. They were of buff leather, covered with precious stones and valued at \$35,000.

Serptuous Hair.
